NATIONAL RECOGNITION CENTRE FOR THE UNITED KINGDOM

Issue 36

December 2014

Welcome to the December 2014 edition of the NARIC News. We hope you have a fantastic festive season.

## Migrants filling UK skills gaps in Construction and Teaching

Recent reports have highlighted potential shortages in the [construction industry](#) and [teaching](#) that could lead to an increase in the use of migrant workers.

The latest figures from UK NARIC show that Teaching remains the most popular field of interest for applications and that there has been a threefold increase those interested in the Construction, Planning and the Built Environment ([more...](#))

### Training Programme

In early January we will be updating the scheduled training programme for 2015. Please check back in January ([more...](#))

### Season's Greetings

We would like to wish all our members a [Happy Festive Season](#) and an [enjoyable New Year](#). We would also like to remind you that our offices are closed from 25 December 2014 until 4 January 2015 (inclusive).

### Benchmarking secondary education

CXC explains how UK NARIC's benchmarking project supports understanding and recognition of their newest secondary qualification, the CCSLC ([more...](#))

**Free, quick and easy online Results Verification from IELTS**

**Winners of Viral Video competition announced**

**UK NARIC to launch eTraining Suite**

The IELTS partners recommend that all of the thousands of organisations that accept IELTS scores register to use the free online IELTS Results Verification Service. ([more...](#))

The UK NEC has announced the winners of the Viral Video competition. The first prize was awarded to a student from Canterbury Christchurch University ([more...](#))

In line with feedback received from its members, UK NARIC is pleased to announce that it will be launching its new eTraining courses from February 2015 onwards. ([more...](#))

## Consultant Opportunities

Have expertise in education? UK NARIC regularly has opportunities for experienced consultants to provide input to our project work. ([more...](#))
